ABOUT US

Instiglio is a non-profit consulting firm and global leader in the use of Results-Based Financing (RBF). Since our founding in 2012, we have pioneered novel RBF and performance management approaches in developing countries to ensure that every dollar invested in solutions to poverty has the greatest possible impact. Instiglio is helping to build a global results movement in major social sectors, including livelihoods, agriculture, education, health, employment, and governance.

During our journey, we have worked with a range of actors; including governments (e.g., Governments of Colombia, Peru, Morocco, and Egypt), multilateral development banks (e.g., World Bank, Inter-American Development Bank), development aid agencies (e.g., USAID, MCC, DFID, GAC, SECO), service providers (e.g., Educate Girls, Mercy Corps, World Vision), and private foundations (e.g., IKEA Foundation, UBS Optimus Foundation, Fundación Corona, Fundación Bancolombia).

Instiglio has successfully launched Results Based Financing projects in over 15 Latin American, African, and South Asian countries, totaling over US $500 million tied to results. Particularly important milestones include the world’s first Development Impact Bond (education, India); the first Social Impact Bond launched in a middle-income country (workforce development, Colombia); the first Outcomes Fund (poverty graduation, Kenya and Uganda); and the launch of performance-based contracts with governments in Africa (employability, Morocco). Instiglio has also advised pioneer Results Based Financing transactions in the areas of agriculture and rural development in Colombia and Peru with the Canadian (GAC) and Swiss (SECO) development aid agencies, respectively. In addition, Instiglio has increasingly supported governments in strengthening their own systems of delivery through multi-year reform processes.

We are a diverse team of 50+ people, representing 10+ nationalities, with offices in Kenya, Morocco, Colombia, Peru, and the USA. Our team of practitioners has extensive development and government experience, including previous roles in impact evaluation (e.g., J-PAL), development banks (e.g., World Bank), country governments (e.g., Rwanda Ministry of Finance, Colombia’s National Planning Department, Congress of Colombia), and research (e.g., Harvard’s Center for International Development).

THE ROLE

The Morocco office is Instiglio’s newest office, where we are leading exciting engagements with ministries and donors to transform social service delivery across a range of sectors. Morocco offers an environment ripe for RBF: a strong focus on results, strong government capabilities, and interest from key players to support RBF. Our projects are an opportunity to position Morocco as a leading country in the use of RBF, generate critical learnings, and create a blueprint for improved institutional performance.

Associates in the Morocco office will join a growing, entrepreneurial team. Associates will gain expertise in RBF by contributing to the development of RBF instruments while playing a crucial role in the execution of our projects. They will gain a thorough understanding of design choices, independently assess tradeoffs, and make recommendations for technical design of RBF instruments. Associates at Instiglio support project teams in guiding
stakeholders through difficult yet important changes to their operations by translating complex concepts into understandable insights. Within the team, Associates will work directly with a team composed of a project lead, project manager(s), senior associates, and analysts to deliver high-quality services. Tasks may include:

- Describing and interpreting graphs, proposing and structuring data analyses, analyzing data and applying statistical concepts (e.g. mean, SD, regressions) to draw actionable insights/hypotheses.
- Analyzing and understanding all the dimensions of RBF, including economic concepts, developing technical components of RBF instruments from scratch.
- Participating in the preparation of proposals and client deliverables, articulating technical concepts in an eloquent and accessible manner.
- Contributing to clear and effective presentations to stakeholders in the public and private sectors.
- Designing activities and tasks to achieve the most effective results for the team.
- Actively improving our RBF services and our delivery systems.

THE PROFILE

We are growing a team of resourceful go-getters that are driven by our mission, curious about the world, and dedicated to a life of learning. An ideal candidate will have:

REQUIRED QUALIFICATIONS

- **Experience:** At least 3 years of relevant work experience in international development and/or in the public sector.
- **Education:**
  - BA degree in economics, development economics, statistics, or related fields.
  - Master’s degree in economics, development economics, statistics, or related fields.
- **Language skills:**
  - Exceptional written and oral communication skills in English and French - C1.
- **Skills:** Exceptional problem-solving and structured thinking skills:
  - Ability to adeptly execute complex analytical frameworks, maintaining coherence and with very little supervision from managers.
  - Working proficiency of the most common analytical principals (e.g. MECE) to give structure to the analysis.

PREFERRED QUALIFICATIONS

- **Experience:**
  - Work experience in consultancy.
  - Results-based financing, performance management, or monitoring and evaluation experience.
- **Skills:**
  - Knowledge of Results-Based financing and/or experience related to the field.
  - Strong people skills: Ability to relate well with people from different backgrounds, build trust, and solve problems with some support from other team members.
- **Language skills:**
  - Professional working proficiency in Arabic.

HOW TO APPLY

Please apply here. Applications are rolling and considered as they are submitted. Please note that only candidates selected for an interview will be contacted and that the curriculum must be provided only in English version.
